ABOUT NAINA SEMICONDUCTOR LTD.

Naina Semiconductor Ltd. was incorporated in the year 1988 in the state of Uttar Pradesh in India. Starting with plastic devices such as standard recovery & fast recovery diodes in packages of DO-41, DO-27 & R-6 for various applications, the company has grown to new heights. Over the past 24 years, the company has expanded rapidly in the field of power semiconductors and is now one of the leading manufacturers of these components in India.

Certification & Standards

- » The company has earned the ISO 9001:2008 Certification, which is the standard of quality management system. With this, we are able to keep up and maintain a strict control on the quality system for all the products. We are able to provide the customer what they need and guaranteeing the best quality which exceeds their expectations. Every step in the production process is thoroughly checked and tested to ensure only the best and stable quality products are produced.
- » We also comply with the RoHS and Lead-Free International standards, and guarantee the environmental safety of our components.
- » All of our devices follow the international JEDEC package standards as well as the military grade standards, MIL-STDs.

Applications & Technology

The products are of the highest standards with high demands in the field of industrial electronics. Welding machines, Battery Chargers, UPS, Power Supplies, Control Panels, Telecom, Railways, Defence, Automotive, Induction heating, Solar Junction boxes, Wind Energy etc. are just some of the applications of this product line.

The continuous improvement in technology enables us to bring forth more advanced and competitive products keeping in mind the demand of the customers as the key goal.

Company Goal

Our mission is to provide customers with world-class products, through constant innovation, design, development and production, while maintaining strict quality control. We firmly believe in keeping our customers needs as a priority and also have a win-win business philosophy. We are always striving towards excellence and believe that under our customers care and support, we can build a fruitful relationship for the future.

NAINA SEMICONDUCTOR LTD.
